## The Goodness of God

For **James - Part 1 - Trials and Temptations**, we are featuring The Goodness of God by Randy Alcorn. This is an excellent and readable book dealing with the problem of suffering and pain to supplement what we are learning in the first portion of the book of James.

Alcorn avoids superficial or sentimental responses, and instead presses forward boldly to explore all the troubling doubts and questions that agitate within us when we confront suffering and evil. The issues are far from simple, the answers far from easy—but Alcorn shows how the way of suffering—a path that Jesus himself followed more than anyone else—can ultimately become a journey into wholeness and even logic-defying joy.

## The Mysteries of Heaven - Audio CD Album

Hebrews 6 considers teachings about life after death and the reality of eternal judgment to be some of the elementary doctrines of the Christian faith. Yet, most Christians know very little about what lies beyond death's door.

In *The Mysteries of Heaven*, Pastor Kurt Trucksess brings clarity to mysteries beyond the grave. In this series, we learn how our earthly life magnifies either the joy of heaven or the tragedy of hell. We discover an amazing time when heaven becomes better. We learn when God will give us real, tangible bodies that will not age. We tackle the perplexing problem of the millennium, the thousand year reign of Christ on earth. This series also teaches us where to find hope when someone we loves dies. Two messages handle questions the church submitted about life after death.

The *Mysteries of Heaven* is a practical teaching that paints a captivating picture of heaven, motivates us to live for things of eternal value, and casts a vision of the glory that await God's children when their life's work is complete.

## Christmas from the Book of Revelation - Audio CD Album

There is no more Christ exalting book than Revelation. Jesus drips from every paragraph. *Christmas from the Book of Revelation* reveals why the Lamb of God is the never-ending focus of worship. It explains why history can only be culminated by Christ. Along the way, we discover why God gave us passions for sports to teach us about worship. We learn why Christians suffer on earth and how God uses our suffering as his chosen method to reach the nations with the gospel.

Each message begins with interpretive grids for understanding this complex book. Like Benjamin Franklin glasses from the movie, "National Treasure," these grids help us to see what God wants us to know. Grids include: the theme behind apocalyptic literature, how to understand the bizarreness of Revelation's images, the difference between a letter and an apocalypse and the meaning behind key numbers in Bible.

### Series Contents - 4 Audio CD's - \$7

- Revelation 5 - The Triumph of the Lamb
- Revelation 5 - The Lamb and the Nations
- Revelation 12 - The Lamb and the Dragon
- BONUS MESSAGE - Christmas Eve 2010 - King Jesus

## Doctrine - Audio CD Album

In, *Doctrine - What Do We Believe?*, Pastor Kurt Trucksess teaches eleven basics of the Christian faith as articulated by the 2008 revision of the Evangelical Free Church Statement of Faith. In this series, we learn the nature of God. We discover why we can trust our Bible. Using the lens of Scripture, the scope of our sin and the grace offered to us through Christ is revealed. The center of the series provides extensive teaching on Christ's identity and work, the hinge upon which the Christian faith turns. Focusing on the Christian life, the teachings on the Holy Spirit and Christian Living teach how to overcome persistent sin and discover the joy God offers as we walk with him. The series completes by painting a picture of the eternal destinies of mankind when Christ returns.

The *Doctrine* series is guaranteed to challenge your heart and your mind. While rich in theology, using a no-holds-barred teaching style that is seasoned with stories and humor, Kurt will keep you engaged while you learn the basics of the faith.

## Reasons to Believe Your Bible - Audio CD Album

In *Reasons to Believe Your Bible*, we learn Christians aren't expected to check their brains at the door. Rather, our mind should feed our faith. In *Logical Reasons*, we discover how the all-or-nothing claims of the Bible don't allow us to consider it just a good book. In *Historical Reasons* and *Prophetic Reasons*, we look at the Bible's solid connection with history. In *Scientific Reasons*, we wrestle with the Genesis account of creation versus the theory of evolution taught in high school biology. In *Providential Reasons*, we interact with Dan Brown's novel, *The DaVinci Code*, to learn the true story of how the books in our Bible were collected into the Bible we hold today. In *Personal Reasons*, we discover the unique transforming power of the Bible to change our lives.
